### **Gay Wilson**

Gay is an accountant and has been with the firm since the beginning of the firm. Our target client has always been the small to medium size business that sometimes gets lost in the bigger firms. One of the biggest differences between our firm and other firms is the personal touch that we give each of our clients. Each accountant has a group of clients that they are responsible for with others in the firm capable of handling any issues in our absence. Form some of our clients we are their accounting department. We handle billing customers, paying bills, dealing with vendors, making deposits, reconciling the bank accounts, filing all sales, lodging, liquor and payroll tax returns. We also produce monthly financial statements and prepare the annual business and individual income tax returns.
